Medical Gas Pipeline System Solutions

Trusted Partner for your Pipeline Installation Solutions

Air Liquide Healthcare has over 25 years of experience in providing medical gases and related equipment to the Australian market. Our highly-qualified staff strives to serve all of our customers as professionally, effectively and efficiently as possible.

Modular Operation Theatre

We would like to introduce ourselves as an ISO certified manufacturer of Modular Operation Theatres.

Surgical Wholesale Mart Pvt. Ltd. is a leading company providing new-age healthcare solutions to the nation. The company is dedicated to designing, constructing, manufacturing, fabricating supplying and installation of Medical Gas Pipe Line Systems and Modular Operation Theatres. We have a team of dedicated professionals in sales, execution, after sales service and R & D. The Research work of our product range is done on various attributes, thus meeting the various requirements of our esteemed clients. The attributes are:

- **State of Art Designs**
- **Safety Adherence**
- **Smooth Functioning of All Components**

PLANING

The design of the modular system is carried out in accordance with technical building requirements. We are focused on planning, designing, providing 3D visualizations and simulations for our customers according to the needs. We suggest the ideal materials which can be used, integrate all the medical equipment's and technologies internally as well as externally in order to provide the best possible solution for our customers. Our main focus remains ensuring the best possible use of resources for our customers.

DESIGN

Our solutions are in accordance with international guidelines, regulations, and norms. We follow NABH, GMP, and FDA guidelines.

CONSTRUCTION

The turnkey solutions for the ORs include complete wall and ceiling panels, HVAC, Laminar flow, antibacterial vinyl/epoxy flooring, medical gas outlets, and all the medical equipment to complement and integrate all parameters essential for the smooth operation of an OR.

Modular represents a unique combination of design, quality, innovation, and flexibility which enable customized adaptations, upgrades, and the integration of new devices to be carried out at any time. The highest quality standards are met, prefabricated modules are tailor-made to the customer's requirements, and the integration of new systems and devices for operating rooms, preparation rooms, and scrub areas is. We are focused on providing ideal clinical conditions in operating rooms. An OR is a dynamic work environment in which it's important to communicate, have sterile, filtered air, flushed antibacterial surfaces, and controlled conditions in the OR.

O.T Table Electric + Manual Top Slide with Central Locking (Deluxe)

SWM : 11029

- Five sectional stainless steel radio translucent top
- Eccentrically positioned top for maximum access for movement of c arm image intensifier
- Base and cover made of heavy & hygienic stainless steel sheet
- Mobile on smooth running castors and floor lacking system of stability.
- Remote control system offers define positions:
- Top Slide with Six Functional
- Chair position for seating operation

O.T Table Electric Manual Eco Model SWM : 11030

- Five sectional stainless steel radio translucent top
- Eccentrically positioned top for maximum access for movement of c arm image intensifier
- Base and cover made of heavy & hygienic stainless steel sheet
- Mobile on smooth running castors and floor lacking system of stability.
- Remote control system offers define positions:
- Five Functional

O.T Table Semi Electric Carm SWM : 11031

- Height adjustable & rest manually operated
- Centric base made from high quality stainless steel.
- Leg & Head section are interchangeable.
- Centric pillars, Stainless ring
- Detachable head, leg and pelvic section.
- Inbuilt kidney bridge.
- Base and cover made of attractive, easy to clean stainless steel.
- Sophisticated mechanics provide smooth, stepless articulation of the table top for precise patient positioning

O.T Table Carm Hydraulic SWM : 11032

- Hydraulic and Mechanical Operated.
- Centric base made from high quality stainless steel.
- Leg & Head section are interchangeable.
- Centric pillars, Stainless ring
- Detachable head, leg and pelvic section.
- Inbuilt kidney bridge.
- Base and cover made of attractive, easy to clean stainless steel.
- Sophisticated mechanics provide smooth, stepless articulation of the table top for precise patient positioning

O.T Table General (Hydraulic) SWM : 11033

- Five Sectional Stainless Steel Radio Translucent Top.
- Eccentrically Positioned top for maximum access for movement of c-arm image intensifies
- Base and cover made of heavy & hygienic stainless steel sheet.
- Mobile on Smooth running castors and floor locking system for stability.
- Durable heavy duty leak proof hydraulic pump with double cylinder concealed in central chamber

Examination Delivery Table
SWM : 11034

- Overall approx. size : 187 L * 51 W * 81 H
- Adjustable backrest by hand
- Two section foam padded, upholstered top
- Pretreated and Epoxy powder coated
- Adjustable lithotomy poles with straps
- Also available in S.S.

Delivery Table Three Fold
SWM : 11035

- Made In Three Sections, Adjustable back rest & Leg Section With lever
- mechanism to various Positions capable of tilting for obstetric and gynecological Use
- Epoxy Coated Tubular Steel frame

Telescopic Table MS & SS
SWM : 11036

- Approx. Dimensions : 72" L x 27" W x 24-32" H
- Tubular Frame work mounted on swiveling castors
- Stainless Steel top in three sections
- Trendelenburg positions adjustable by pneumatic gas spring system
- Hydraulic height adjustable by foot paddle from side

Delivery Table Electric + Manual
SWM : 11037

- The Table is design for women's obstetric & Gynecological Operation
- Position -up/ Down, adjustable back rest and reverse Position Main frame S.S. Work

BABY WARMER
REGULAR

Infant Radiant Warmer With Attached Bay Trolley

- Sensor - Skin sensor
- Alarm - High temp audio visual
- Power fall audio visual
- Heater cut all - Direct at set point
- Display - 50mm LED skin power
- Consumption - 750watt / 220v AC heater quartz (Glass Tube Type) 650w

Add Feature

- Baby tray can swing single side
- IV Stand telescopic type

BABY WARMER
DELUXE

- Sensor - Air Sensor
- Skin Sensor
- Alarm - High Temp.
- Visual Power Fall Audio Visual
- Heater Cut off - Direct at set point.
- Display - 50mm LED Skin & Air
- Power Consumption - 750 Watt/220 V Ac.
- Heater - Quartz (glass tube type)650w.

Add on Feature Deluxe

- Baby Tray can swing both side
- IV stand telescopic type
- Acrylic side 6mm slide down type Heater
- Ceramic 600w.

BABY WARMER
SUPER DELUXE

- Heater : Ceramic / quartz 600 w.
- Skin Temp. setting range: 32 to 37°C
- Display setting range : 28 to 40°C

Alarm

- Power fail - audio/visual
- Temp. high - audio/visual
- Temp. low - audio/visual
- Heater fail - audio/visual (optional)
- Sensor fail - audio/visual

- Mattress - Pressure PU foam.
- Upgar Timer - (Optional).
- IV Stand - Telescopic stainless steel.
- Temp. Probe - PT 100.
- Heater cutoff method - 0 to 100% in 10% in each. interval
- Baby bed - Tray made of stainless steel.
- Wheel - 100mm PU sole with 2 brake 2 plain.

PREMIUM BABY WARMER N 102

Infant Radiant Warmer with attached baby trolley N-102 is innovatively designed to meet Thermoregulatory requirements of newborn infants who suffer extreme of heat loss.

- Self Test System
- Auto/Manual selection modes
- Air/Skin servo controlled system
- Double Digital Display for ACTUAL & SET temperature
- 0C/0F settings
- Heater power indicator
- Feather touch keys for easy operation
- Key pad lock facility
- Fault indication alarms for,
- 10C low/high
- Probe failures
- High temperature cut-off
- System failure
- Power failure

ELECTRICAL SPECIFICATION

Electrical Supply : 230V AC, +/- 10%, 50 Hz

Power consumption with : 650W
Heater at max. output

PREMIUM BABY WARMER N 103

Infant Radiant Warmer with detachable baby trolley N-103 is designed innovatively to meet neonatal care in well run and busy NICU units.

- Self Test System
- Auto/Manual selection modes
- Air/Skin servo controlled system
- Double Digital Display for ACTUAL & SET temperature
- 0C/0F settings
- Heater power indicator
- Feather touch keys for easy operation
- Key pad lock facility
- Fault indication alarms for,
- 10C low/high
- Probe failures
- High temperature cut-off
- System failure
- Power failure

ELECTRICAL SPECIFICATION

Electrical Supply : 230V AC, +/- 10%, 50 Hz

Power consumption with : 650W
Heater at max. output

PREMIUM BABY WARMER N 400

Open Care System with LED Phototherapy N-400 is designed to meet and provides the Neonate with an adequate and secure environment of its care.

- Self Test System
- Auto/Manual selection modes
- Air/Skin servo controlled system
- Double Digital Display for ACTUAL & SET temperature
- 0C/0F settings
- Heater power indicator
- Feather touch keys for easy operation
- Key pad lock facility
- Fault indication alarms for,
- 10C low/high
- Probe failures
- High temperature cut-off
- System failure
- Power failure

ELECTRICAL SPECIFICATION

Electrical Supply : 230V AC, +/- 10%, 50 Hz

Power consumption with : 650W
Heater at max. output

Anesthesia
Workstation Prestige-I

Technical Specification

Application: Adult, Paediatric
Driven mode: Pneumatically driven electronically controlled
Mode: Semi-open, Semi-closed or closed system
Anesthetic Vaporizer: Two high precise vaporizers,
Halothane/Isoflurane/Savolflurane
Power Supply: 100-240V, 50/60Hz
Power Consumption: < 50W
Fresh gas outlet is in front of frame

ANESTHESIA VENTILATOR
Display: High light LED display
Ventilation Mode: IPPV, Manual
Tidal Volume: 50-1600ml
Breath Frequency: 3-100) 1:E ratio: (1:6-4.1)
Monitor Parameter: Tidal Volume. Breath frequency MV Alarm: MV
high alarm, MV low alarm, TV high alarm TV low alarm, Circle
Disconnection Alarm, Oxygen fallure alarm

Circle Absorber System:
Upgraded integrated Circle Absorber, With twins large volume CO2 absorbing Efficienty With non return respiratory valve and expiratory valve on it, avoid gas back flowing With APL valve on it, the airway pressure could be adjusted freely With "Manual/Ventilation "Switch On it, easily and quickly change

Anesthesia
Workstation Premium Prestige

Technical Specification

- Colour touch standardised user interface for reduced training efforts and minimised human errors
- Flexible and transportable monitoring solution ensure continuous patient monitoring
- Improved workplace illumination for better readability and operation in dark environments
- Hooks and brackets for hose and cable guidance, drawers, and shelves for optimal storage of important material
- Various mounting spots and rails for customised mounting of patient monitoring, IT hardware, IV pumps, and additional shelves
- Additional LCD screen displays the volume supply, FiO2 and power status
- Large working surface is convenient for writing documents and storing materials
- High performance breathing system and the ventilator for optimised minimal-low anaesthesia and ICU Quality ventilation therapy for each patient's individual needs

Solution For

HOSPITAL CONSTRUCTIONS

We provide complete end to end solutions for constructions of Hospitals right from design concept, civil constructions, MEP services, Interiors all as per NABH norms.

At MediAid, we understand that building a hospital is a complex undertaking, and we are here to help every step of the way.

Our team of experts can provide design, project management, and construction services to ensure that your facility is built to the highest standards of quality, and that it meets all regulatory requirements.

Domestic Patient Assistance

Dr. Smith | MediAid Curatives India Pvt. Ltd.

Ambulance Services

Air Ambulance

Road Ambulance

Train Ambulance

- The primary goal is to provide the patient with the best possible care and ensure their safe and timely transport to the hospital.
- A well-coordinated and efficient emergency medical service system is necessary to ensure patients receive the care they need as quickly as possible.
- Quick and efficient transfer of patients to the hospital is necessary in case of emergencies.

Medical Equipment on Rent

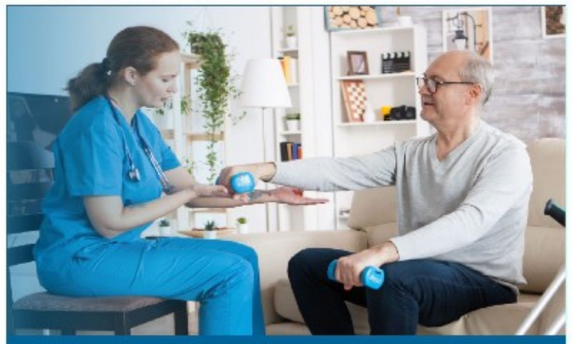

- Cardiac Monitor
- Wheel Chair
- Oxygen Concentrator
- Hospital Bed
- Suction Apparatus
- BI-PAP/C-PAP
- Syringe Pump
- O2 Cylinder
- Glucometer
- OT Table
- Ventillator
- DVT Pump
- Aspirator

Heading-Radiology Services

Radiology is the area of medicine that uses X-rays, magnetic waves and ultrasound to obtain detailed images of the inside of the body. Doctors can then use those images to detect and diagnose illnesses and injuries, as well as to help develop treatment plans.

- Breast Ultrasound
- Computed Tomography (CT) Scan
- Digital Mammography
- Magnetic Resonance Angiography (MRA)
- Magnetic Resonance Imaging (MRI)
- X-ray (Radiography)

Physiotherapy at Home

- Pain
- Paralysis Rehab
- Fitness
- Spinal Injury Rehab
- Sport Injury Rehab
- Stroke Rehab
- Elderly Physiotherapy
- Orthopedics
- Neurological
- Geriatrics
- Pediatrics

Domestic Patient Assistance

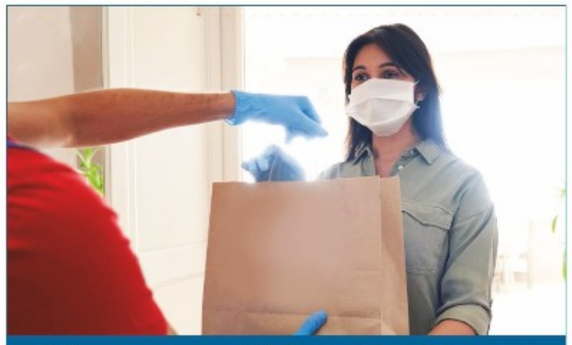

Dr. Smith | MediAid Curatives India Pvt. Ltd.

Home Care Services

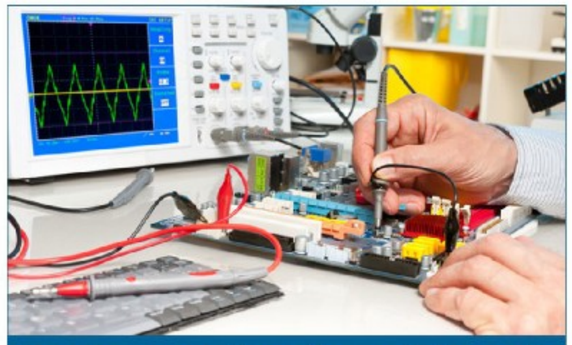

Professional Medical Personnel:

- Professional medical personnel, such as nurses and caregivers, provide expert care and support for individuals with medical needs
- Professional medical personnel can provide care in a variety of settings, including hospitals, clinics, and in-home care.
- Professional medical personnel have the knowledge and training to provide specialized care for individuals with complex medical needs.

Home medicine Delivery

- Buy medicines and get them delivered to your doorstep.
- Ordering is easy. Share your prescription through hatsApp our trained pharmacist will call you to confirm your order, and your order is dispatched.

Equipment Services & Repair

Our experienced, local technicians provide a broad range of service and support capabilities to fit the specific, biomedical equipment needs, staffing challenges and goals of your hospital:

- Repairs and preventive maintenance
- Single or multi-modality service plans
- Flexible, on-demand biomedical support
- Block-of-time technical service
- Dedicated onsite repair and maintenance programs
- Reporting and compliance support

Hospital Construction

We provide complete end to end solutions for constructions of Hospitals right from design concept, civil constructions, MEP services, Interiors all as per NABH norms. At MediAid, we understand that building a hospital is a complex undertaking, and we are here to help every step of the way. Our team of experts can provide design, project management, and construction services to ensure that your facility is built to the highest standards of quality, and that it meets all regulatory requirements.

What Challenge
Do We Solve?

- Absence of coordination among different parts int he business:
- aircraft administrators, lodging providers and emergency clinics.
- No legitimate accreditation and guideline framework for emergency clinics.
- Truth in Advertising.
- Language Barriers.

How Do We Solve
The Challenges?

- MediAid avail medical tourism services for patients around the world.
- Providing patients with medical counselling to hospital assistance, we complete every
- procedure for our patients.
- We are also a recognised platform where patients can get theri medical questions
- answered by medical professionals.

Our Solution

- Best doctors in all segments of medicine
- Alternative therapy healers
- State-of-the-art hospitals,
- Affordable accommodations
- Healthcare companies
- Government policies

Our USP

01

- Affordable treatment costs
- The Availability of the latest medical technologies
- Lesser waiting period
- for treatment
- Highly-skilled doctors

02

- Opportunity to combine medical treatment with a vacation
- Personalized travel packages and concierge services
- High-quality accommodations and amenities
- Multilingual staff and translation services

03

- Multi disciplinary approach to healthcare
- Availability of alternative and complementary therapies
- Multilingual staff and translation services

04

- Offer personalized treatment plans tailored to each patient's unique needs
- Use modern medical equipment and technology
- Strict adherence to safety and hygiene standards

STEP 01

- Personalized packages tailored to the
- requirements of the individual patients

STEP 02

Accommodation for the patients and family members

STEP 03
